

## MARXA CULER 2025 RACE REGULATIONS

### Introduction

As part of the events commemorating its 125th anniversary, Futbol Club Barcelona ("FC Barcelona") is organising the Marxa Culer 2025 ("Marxa Culer", "March" or "Walk").

The Marxa Culer is a non-competitive walk with two categories (long and short, depending on the distance), ending at the Montserrat Monastery. A march, for the purposes of these regulations (the "Regulations"), is a large-scale excursion that must be completed on foot.

Those interested in participating accept the conditions of registration and participation set out in these Regulations.

### Article 1. Date, time and routes

- 1.1. The Marxa Culer will take place on 22 March 2025.
- 1.2. The Long Marxa Culer (or "Long March") will have a route of 46.7 kilometres and 1,408 m of positive gradient. Departure time will be at 00:00.  
The Long March runs mainly along the banks of the Llobregat River. It will leave from the Joan Gamper Sports City, in Sant Joan Despí, and will arrive at the Montserrat Monastery after 6 stages with finishes in: Molins de Rei (kilometre 7,6), Martorell (kilometre 19,7), Sant Esteve Sesrovires (kilometre 27,5), Esparreguera (kilometre 34,3), Collbató (kilometre 40,1) and Plaza del Monasterio de Montserrat (kilometre 46,7).  
The route was measured by the FEEC using a device with built-in GPS.
- 1.3. The Short Marxa Culer (or "Short March") will have a route of 6.6 kilometres and 708m of positive gradient. Departure time will be at 09:00.  
The Short March takes place through the Montserrat Natural Park. It will leave from Collbató and arrive at the Montserrat Monastery after a single 6.5-kilometre stage.  
The route was measured by the FEEC using a device with built-in GPS.
- 1.4. Information on the duration, gradients, refreshment points and cut-off times for each of the stages can be found on the official Marcha website.
- 1.5. Some of the procedures on the Long March are shared with road traffic, and therefore, special care must be taken and traffic regulations must be respected.
- 1.6. The two routes and paths that we will travel on the Marxa Culer are public and open to other hikers and runners who wish to travel; therefore, respect for other users will be required at all times.

In order to collect the bib and all the documentation necessary to participate in the Marxa Culer, the participant must personally present an identity document with a photograph at the bib collection point. - 6.2. FC Barcelona will make the Track of each stage available to participants through the official website of the March. If participants wish to follow the March via GPS, they can do so by downloading the Track from the March's official website and loading it onto the GPS. Participants are responsible for maintaining and charging the GPS battery before each stage of the Marxa Culer.
- 6.3. Participants must pay attention in urban areas and comply with pedestrian regulations. Pedestrian crossings and traffic lights must be respected and attention must be paid at intersections.
- 6.4. If the participant progresses more than 300 m without encountering any markings for the race, he/she must go back until he/she finds the correct route with the markings, and then return to the correct path.
- 6.5. If the participant loses sight of the tapes, he/she must notify the organisation's telephone number on the bib as soon as possible, indicating the position as precisely as possible.
- 6.6. The March is carried out in semi-self-sufficient conditions, meaning that each participant will be responsible for managing the water and food needed for the route between stages. The Long March is an event that requires a high level of physical and

mental preparation, proper management of strength, food and drink. In this sense, it is highly recommended to have experience in long-distance activities.

- 6.7. The organisation will provide liquid and solid refreshments (depending on the stage distance) at the start and end of each stage (these will be announced on the website in the route section). At the end of the route there will always be a complete refreshment stand for all participants.
- 6.8. FC Barcelona will ensure that the food provided at the refreshment points has the necessary references with regard to possible allergies or intolerances, but the responsibility for this falls on each participant, exonerating FC Barcelona from any responsibility for possible allergies or intolerances of each of them that may occur as a result of having ingested food at the refreshment points.

## **Article 7. Sweeping**

- 7.1. The sweeping teams (made up of at least two people) are responsible for closing the Walk and looking after any participants they may encounter along the way.
- 7.2. These teams have the power to make the official closing time of the checkpoints more flexible if the passage rate is higher or lower than expected.
- 7.3. They have the power to remove participants from a Walk who do not comply with the regulations.
- 7.4. They have the power to exclude from a Walk those participants who may be considered at risk due to symptoms that are observed: fatigue, eye injuries, foot injuries or other ailments.
- 7.5. These teams will ensure the collection of any waste that may be generated by the organisation and the participants of the Walk.

## **Article 8. Abandonment**

- 8.1. Participants who decide to abandon the Marxa Culer must leave at one of the checkpoints and inform the organisation. Only a serious injury will justify a participant abandoning at another point of the course, as this would imply a rescue either by land or air.
- 8.2. The organisation only undertakes to transport participants to the stage's arrival point when they have left at a checkpoint with motorised access.
- 8.3. The organisation will not transport participants who have abandoned until the stage has finished, in order to ensure its optimal development.
- 8.4. The organisation, the sweeping teams and/or the medical service may force a participant to abandon or make him stop if they consider that he is in a risky physical situation.

## **Article 9. Safety**

- 9.1. Participants must be prepared to withstand the March in any of its forms, and must ensure that they do not suffer from any illness or condition that would make their participation inadvisable.
- 9.2. By registering for the March, participants will have sports accident insurance in accordance with the Sports Law approved by Legislative Decree 1/2000, of 31 July, by Decree 58/2010 of 4 May, and by Royal Decree 849/1993 of 4 June and which meets the requirements of the aforementioned law: a) civil liability insurance; b) compensation for anatomical, functional or death losses; and c) unlimited health care at participating centers.
- 9.3. The organisation will not be liable and therefore the insurance will not apply in case of illness, any damage caused by the participant's recklessness or negligence, failure to comply with the laws, or non-compliance with these regulations.
- 9.4. The organisation will be in contact with rescue and medical assistance groups to facilitate evacuation in the event of an accident.
- 9.5. Throughout the Walk there will be several internal medical and security teams that will be coordinated with the 112 emergency service for the central management of Marxa Culer.
- 9.6. At some points there may be random or general medical checks. Refusing to undergo a check or disrespecting the doctor or assistant who requests it will result in immediate invalidation of the race number.
- 9.7. All participants will be subject to the judgement of the medical team whenever requested, with the assessment of said medical team prevailing over any other, and therefore doctors and nurses may:
- Eliminate from the race (cancelling the bib) any participant who is considered unfit to continue.
  - Order the evacuation of any participant they consider to be in danger.
  - Order the hospitalization of any participant when it is considered necessary.
- 9.8. The Walk management will never question the judgement or decisions made by the members of the medical team and will not be held responsible for any consequences that failure to comply with the orders of the medical team may have on the participant.

- 10.1. All participants are obliged to assist any other participant in need, to the best of their abilities and knowledge. Failure to do so would entail committing a serious crime for failure to provide assistance, as stipulated by law.
- 10.2. In the event that the participant or a companion cannot reach a refreshment point by themselves due to a medical or other emergency, they must follow these instructions:  
Call the emergency number 112, inform them that you are participants in the Marxa Culer, provide the name and bib number, either your own or that of the patient (if assisting), describe the situation and the approximate location, and follow the instructions given.
- 10.3. It should be noted that most of the Marxa Culer route passes through areas that can only be accessed on foot, which may compromise the access of medical and/or rescue teams, although they will try to arrive as quickly as possible. For this reason, participants must:
  - ONLY WHEN IT IS ESSENTIAL, travel to a point ALWAYS WITHIN THE ROUTE where you have telephone coverage, to be in permanent and direct contact with the organisation.
  - Please note that once aid has been requested, a series of resources will be mobilised based on the information obtained and, therefore, the information provided will be very important.
  - NEVER leave the route, as this would make location difficult.
  - When planning your equipment, keep in mind that you must be prepared for situations where you may have to move very slowly or even wait for a long time in adverse weather conditions.
  - Notify of any changes that occur between the time of the call and your location.

## **Article 11. Disqualifications and other penalties**

- 11.1. The accredited staff of the organisation, the sweeping teams, the people responsible for each control or supply point and, when appropriate, the members of the Marxa Culer medical service, are authorised to sanction with penalty time or even disqualification, the participants who during the walk (non-limiting list of behaviours):
  - Do not comply with any of the points of this Regulation.
  - Use any type of mechanical transport/propulsion (except the use of walking sticks).
  - Get off the beaten track.
  - Do not wear the bib or do not wear it clearly visible.
  - Take part of the route using unauthorised means of transport during the course of the Walk.
  - Voluntarily abandon the rubble.

## **Article 12. Cutting Time and Classification**

- 12.1. The table of disqualification times at the different checkpoints will be published on the Marxa Culer website (in the "Route" section).
- 12.2. Participants arriving at a checkpoint later than the indicated time will be automatically disqualified from the stage. ### **Article 13. Event cancellation**

- 13.1. In the event that force majeure causes require the suspension of the March on the scheduled date, FC Barcelona undertakes to notify the registered participants of the suspension as soon as possible and to set an alternative date or to cancel the event altogether. In this case, FC Barcelona will offer the option of maintaining the registration for the day on which the Walk is finally held (if another date is set), or alternatively, the option of refunding the registration fee.
- 13.2. The organisation may also decide to cancel the March due to a lack of registrations. In this case, the full amount of the registrations made will be refunded.

### **Article 14. Neutralization of the event**

- 14.1. In the event that the weather forecast on the day of the race is worse than expected and is considered to endanger participants (electrical storm, poor visibility, etc.), the start may be delayed or the race may be stopped/neutralised if it is already underway.
- 14.2. If after a few hours the conditions do not improve, the current stage and/or the Marxa Culer will be permanently suspended.
- 14.3. In any of the above cases, participants must wait at the checkpoint where they are standing and wait for instructions from the organisation to be able to be evacuated.
- 14.4. The instructions of the competent authority in this regard will be followed at all times: civil protection, firefighters of the Generalitat and members of the organisation.

The images may be used free of charge for advertising purposes and/or for dissemination of the same activity or subsequent editions and for sale.
